WORK EXPERIENCE

Fortaxe Global | Senior Full Stack Developer | Remote

Feb 2025 - Present

- Promoted to Senior Full Stack Developer to lead the design and development of advanced features for scalable applications.
- Mentored junior developers, conducted code reviews, and enforced best practices for maintainable, scalable codebases.
- Collaborated with cross-functional teams to deliver multiple major projects while maintaining high code quality through comprehensive testing and documentation.

Fortaxe Global | Full Stack Developer | Remote

Sep 2024 – Jan 2025

- Built and deployed scalable applications using Next.js, React, Node.js, GraphQL, and MongoDB.
- Architected and optimized GraphQL APIs and MongoDB schemas, improving query response times with efficient indexing and Redis caching.

Rentkar | Web Developer Intern | Mumbai

July 2024 – Aug 2024

- Enhanced the performance & functionality of the E-Commerce website by implementing key optimizations, resulting in a smoother user experience.
- Integrated dynamic features and resolved performance bottlenecks, enhancing the user experience and reducing load times by 25%.

PROJECTS

YTNotes – [website](#) | [github](#)

- Developed an AI Agent that can instantly generate clear, concise summaries of any YouTube video in seconds.
- **Technologies:** Next.js, TypeScript, LangChain, LanGraph, MongoDB, Deepseek, Tailwind CSS.

SketchSync - [website](#) | [github](#)

- Developed a custom diagram creation tool using the Excalidraw Canvas API, enabling users to create and export diagrams.
- **Technologies:** Next.js, TypeScript, Convex, Tailwind CSS.

SKILLS

JavaScript, TypeScript, Python, Next.js, React, Redux, Tailwind, Node.js, FastAPI, GraphQL, WebSockets, Express.js, Hono, PostgreSQL, Redis, MySQL, Prisma, AWS, Docker, Cloudflare, CI/CD Pipeline, Jest, GitHub, Turborepo.

EDUCATION

- B.COM Computer Applications CGPA: 8.53
- Government Degree College Sitaphalmandi 2018 - 2021
